2 Your Radio

2.1 In The Box

Carefully remove your Radio from the box.

Inside the box you will find:

- Radio
- Mains power supply lead
- Quick Start Guide
- Guarantee Booklet

If any of these items are missing contact
Customer Support at goodmans@bmstores.co.uk

Power

Your Radio requires a mains supply of 230V AC ~ 50 Hz. or 4 x size 'C' Batteries. Please ensure that your mains supply is compatible before use. Disconnect the Power Cord from the mains or remove the batteries when not in use.

Position of Radio

Place on a flat, stable surface that is not subject to vibrations. Avoid the following locations:

- Where it is exposed to direct sunlight
- Where it is close to heat radiating sources
- Where the humidity is high and ventilation is poor
- Where it is dusty

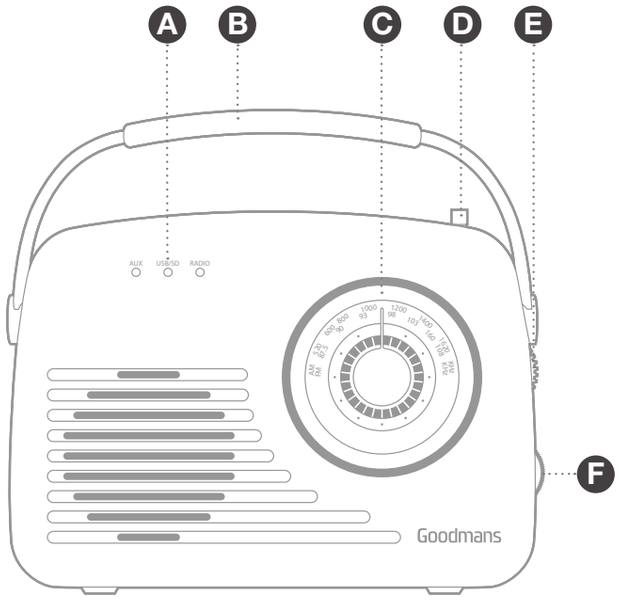
Adjusting the Aerial

Fully extend the aerial to ensure good reception for the Radio. It may be necessary to alter the position of the Radio and/or the aerial to achieve the best signal.

Using Headphones

Headphones require a 3.5mm diameter stereo plug and an impedance of 8-32 ohms. Headphones are not supplied with this Radio.

2.2 Front View



A **INDICATOR lights**.
Will illuminate when selected.

2. Press the function button to select USB/SD mode.
3. Use the buttons on the Radio to control playback.

4.5 Standby

1. The Radio will switch to standby mode if it is left idle on the Aux or USB/SD modes for over 10 minutes.

5 Troubleshooting

Problem	What to do
There is no sound from my radio	Check that the volume is not set to the minimum. Make sure that the radio has been able to locate FM stations.
Poor reception	As with any radio service, there will be areas of weak signal that may cause poor reception. Follow the instructions for Manual Tuning on 4.2 and adjust the aerial while monitoring the signal strength until the optimum signal is obtained. If reception is still poor, try re-locating the radio to another part of the room.
Some of the buttons on the Radio are not working	This may be caused by electrostatic discharge. Turn the Radio off, disconnect the mains plug and reconnect after a few seconds.

6 Technical Specification

Model Number	329176
Power Supply	220-240V AC ~ 50 Hz Adapter: DC 6V, 1000mA
Speaker Output Power	2W x 1
Frequency Range	FM: 87.5-108MHz
