	Wall plate x1	Left bracket x1		Right bracket x1		
M8*15 x4	Wall plate x1	Left bracket x1		Right bracket x1		

INSTALLATION

Installing a Blaupunkt TV Wall Mount is as easy as putting up a shelf. Easy to follow installation instructions are included with each product.

As easy as 1-2-3

Most Blaupunkt TV brackets come pre-assembled so installation is simple.

1 - Attaching the TV brackets to the TV

(Always start with the TV. If there is a compatibility issue at this point, you have not drilled the wall.)

Step-1

Step 1:
Install the monitor brackets onto the back of the TV panel: screw two bolts into the holes in the back of the TV panel to install each monitor bracket. Make sure the distance from each bracket to the top of the TV panel is equal and in the center, with the handles facing outwards.

2 - Wall installation

Step-1

Step 1:
Use the wall plate as a template to drill six holes of 10mm diameter and 50mm depth in the concrete wall. Then insert six plastic concrete anchors into the holes.

Step-2

Step 2:
To install the wall plate, put the wall plate on the wall, then put the six self tap screws through the metal washers and screw into each plastic concrete anchor.

Stud wall installation

Step-1

Step 1:

Drill mounting holes for wall plate. Using an electronic stud finder, identify and mark the locations of 2 interior wall studs. Using the wall plate as a template, mark and then drill 4 holes with 3/16" diameter drill bit.

Note: We do not recommend installation in hollow core concrete blocks, only solid blocks using concrete anchors.

Step-2

Step 2:

To install the wall plate, put the wall plate on the wall, then put four self tap screws through the metal washers and screw into each plastic concrete anchor.

3 - Mounting the TV onto the wall plate

Step-1

Step 1:

Hang two monitor brackets on the wall plate. Only loosen your grip when the TV is secured onto the wall plate. The handles should be loosened before adjusting the angle of view of the TV between 0-10°. After the position has been determined, the handles need to be tightened.

Step-2

Step 2:

There is a bolt under each monitor bracket. Un-screw the bolts to the lowest point before installation. After the position of the TV has been determined and the handles have been tightened, re-screw the bolts to fix the monitor brackets to the wall plate.

Wall Type

It is also important to consider the type of wall you are mounting your TV on.

Use a stud-finder to find wooden battens/studs and to ensure there are no hidden pipes or wires behind where you intend to drill.

Do not mount onto drywall/plasterboard or panelled walls unless all wall plate screws are fixed into a wooden batten/stud.

When fixing to brickwork or solid masonry use suitable wall plugs and screws.

It is your responsibility to ensure the wall structure and fixings are capable of supporting the screen and mount in a normal working environment.

Check the strength of the installation before installing the screen and if you have any doubts regarding installation please consult a qualified contractor.

WARNING

Correct installation is extremely essential, and falls outside the scope of responsibility of Blaupunkt.

The fastening material provided is exclusively intended for installation on walls made of solid wood, bricks, concrete or solid-wood columns with a maximum of 3 mm wall finishing.

For walls made of other materials, for example hollow bricks, please consult your installer and/or specialist supplier.

During installation, please also follow the instructions for installation and use of the apparatus to be installed/fixed (for example the LCD/LED/plasma screen).

SPECIFICATIONS

Maximum Load : 75kg

Size of flat panel TV: 32"- 64"

Weight of mount : 3.06kg

Distance from Wall: 50mm

Pitching angle: 0°~10°

GUARANTEE

This product is guaranteed for twelve months from the date of original purchase. If any defect should occur due to faulty materials or workmanship, please return it to the store it was purchased from.

You will need to have your receipt of purchase to hand . The guarantee is subject to the following provisions:
