GAMING HEADSET

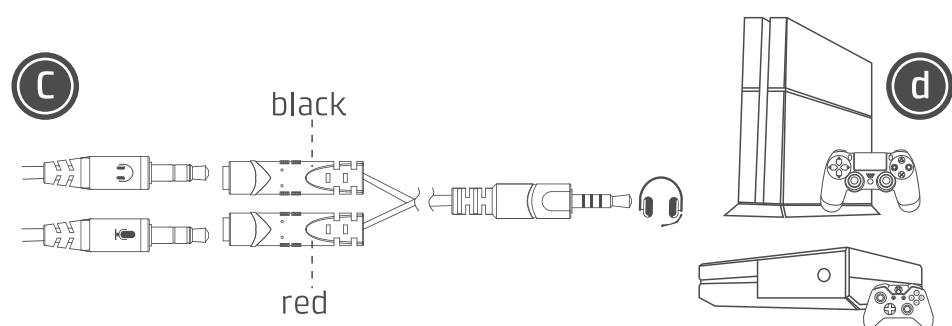

GAMING HEADSET
MODEL: 346509

Connecting to your PC

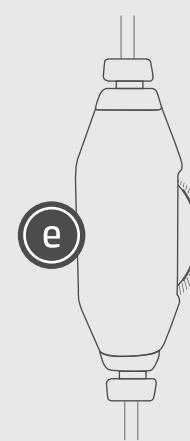

- a** Connect the USB connector to your PC. Note that the USB connection is needed for the headset lights to work.
- b** Connect the black connector to the headphone port and the red connector to the microphone port.

Connecting to your Games Console

- c** With the Y adapter cable fitted to the black and red connectors, connect the other end to your games controller.
- d** For the headset lights to work you will need to connect the USB cable to your games console.

DID YOU KNOW?

- e** You can adjust the volume on your headset by rotating the control wheel.
