Assembly Instructions**

Keep instructions for future reference.

Top Tips before you start!

1. Please check that all parts are present before you start the assembly of your furniture.
2. For ease and speed of assembly, we recommend that before you commence each step of the assembly, that you identify all the parts required for that step.
3. For larger items, please ensure that you have sufficient space and people (as indicated on page 1) to assemble your product safely.
4. We recommend that, where possible, all items are assembled near to the area in which they will be placed in use, to avoid moving the product unnecessarily once assembled.
5. For the protection of your furniture, we recommend that the product is placed on a protected surface during assembly to prevent any damage.
6. This product is intended for indoor, household use only as it is non-industrial product.
7. Please do not kneel on any part of this product during assembly.
8. During assembly please take care not to over-tighten any fittings, as this may damage the product.
9. Always place the product on a flat, steady and stable surface.
10. This product is intended for a maximum person's weight of 100kg per side. Do not exceed this weight.

WARNINGS

1. Only use the storage compartment when the frame is fully raised in the up position.
2. DO make sure the legs remain in contact with the ground.
3. DO use caution when operating, this bed uses a pressured mechanism.
4. Please ensure children do not play in the storage area or try to lift up the metal frame.
5. DO keep hands and fingers clear of the mechanism when opening and closing the bed for use.
6. DO NOT use this product if parts are missing, damaged or worn.
7. DO NOT stand on the product.
8. DO NOT remain on the bed whilst the lifting mechanism is in use.
9. DO NOT expose this product to dripping or splashing, rain or areas with heavy moisture.
10. DO NOT place any objects filled with liquids, such as vases, on the product.
11. DO NOT insert foreign objects into the product or attempt to repair this unit by yourself.

CARE AND MAINTENANCE OF YOUR FURNITURE

- Please periodically check all fixings and re-tighten as necessary.
- To clean your item, please use a damp cloth and wipe clean.
- Please do not drag and pull your furniture.

ITEM CODE: 425651 / 426667

Assembly Instructions

IMPORTANT PISTON INFORMATION

The pistons used in the construction of this product are extremely strong and cannot be operated by hand when not fitted to the ottoman hinges. All pistons are tested in the factory for correct pressure and operation before use.

Initially it might appear that the pistons are very stiff when opening and closing the ottoman frame, THIS IS NORMAL.

After operating the ottoman a few times, the movement of the pistons and the opening and closing of the ottoman will become easier.

Assembly Instructions

Hints and Tips

To close the ottoman, always use 2 hands at arms length and only where illustrated on this product .

You must ensure the mattress is on the bed frame before lifting the mechanism.

Failure to do so may result in injury. Use the lifting strap to open the ottoman.

To ensure your safety please do not stand too close in case the frame bounces up. The weight of the mattress loaded on the frame will keep the frame in a lower position until it is pulled upwards by the user.

If removing the mattress, make sure the frame is secured so it does not flip open. When lifting the bed frame, remove pillows and covers.

PLEASE NOTE - It takes a lot of force to make the initial movement of the ottoman - **THIS IS A DESIGN FEATURE OF THE PRODUCT SO THAT IT DOES NOT FALL SHUT** - and the nearer to being closed the ottoman is, the easier it is to move. When the ottoman is almost shut, keep the fingers and hands clear and it will close completely under its own weight.

When lowering the slat unit for the first time, take care to make sure it does not rub unevenly on the inside face of the Side Rail. If it does, the bed has been assembled slightly out of square. This can be rectified by moving the Footboard of the bed slightly to the left or right whilst leaving the headboard of the bed frame stationary.

KARINA BAILEY MYLA DOUBLE / KING GAS LIFT OTTOMAN SLATTED BED

ITEM CODE: 425651 / 426667

Assembly Instructions

Do not attempt to move the bed whilst the frame is in the upright position.

KARINA BAILEY MYLA DOUBLE / KING GAS LIFT OTTOMAN SLATTED BED

ITEM CODE: 425651 / 426667

Assembly Instructions

STEP 1

Attaching the Metal Bracket to the Headboard & Footboard.

C	x 4
G	x 1

Ensure that the Angel Irons are attached to the Headboard and the Footboard with the ledge facing upwards.

STEP 2

Attaching the Headboard & Footboard on the Side Rails.

B	x 8

MAKE CERTAIN THE BED IS SQUARE AS SHOWN.
Note: THEN tighten all bolts 100% using allen key.

ITEM CODE: 425651 / 426667

Assembly Instructions

STEP 5

Fabric Base Attachment

With an assistant, carefully lift both the Headboard & Footboard at the same time, do not let the bed frame twist. Lift and turn the bed frame on its side holding the bed upright for safety. Attach the Fabric Base ⑯ to bottom of the Side Rails, Headboard & Footboard with the velcro tape. Ensure the fabric is fixed evenly all around.

STEP 6

Constructing the Ottoman Metal Frame

Position Metal Frame ⑧ with the pre-drilled holes facing Part ⑦.

Assembly Instructions

STEP 9

Attaching the Gas Stuts to Lift Mechanisms

STEP 10

KARINA BAILEY MYLA DOUBLE / KING GAS LIFT OTTOMAN SLATTED BED

ITEM CODE: 425651 / 426667

Assembly Instructions

Your bed frame is now completely assembled but the ottoman will not operate correctly unless a mattress is placed on the slat frame and will not stay shut unless the mattress remains in position. To position the mattress on the slat frame, simply place the mattress on top of the slat frame whilst it is in the up (open) position.

Lift with the strap **(17)** and close as per guidance page 6. The strap should always be accessible. Take care not to lean over the bed when lifting, if the mattress is thin and light, the frame may rise quickly. The speed of closing will also depend on the weight of the mattress so always keep fingers well clear of the metal frame.

PLEASE NOTE - It takes a lot of force to make the initial movement of the ottoman - **THIS IS A DESIGN FEATURE OF THE PRODUCT SO THAT IT DOES NOT FALL SHUT** - and the nearer to being closed the ottoman is, the easier it is to move. When the ottoman is almost shut, it will close completely under its own weight.

Tip for difficulty with compression:

If you are experiencing difficulty with the initial compression try fitting one piston at a time (following the Assembly Instructions) then press down on the side of the frame with the piston fitted - this acts like a big lever (The weight of the mattress can be used to supplement the load exerted). Effectively you are doubling the amount of force applied, because you have halved the resistance offered by the pistons. It can take slightly more effort than you might feel comfortable applying to the bed frame at first.

Domestic Use Only
